IIIT Bangalore - PG Diploma Blockchain Specialization   Bangalore, India
Learnt and exercised my knowledge in Hyperledger Fabric, and Ethereum.   03 August 2021

JNTU Hyderabad - B'tech   Hyderabad. India
Headed the Robotics Club and Co-founded a programming community – coding.Studio();   01 June 2020

Experience

NPCI
Blockchain Associate   Nov'20 – April'22
Worked on one of the leading payment platforms for instant online fund transfers in India. Coordinated with the team to successfully develop and deploy the platform on Kubernetes, and onboarded over 20 banks onto the platform allowing us to reach 10% of the overall volume during the early production runs.

StaTwig
Backend Intern   Jan'20– April'20
Blockchain Developer   April'22– Present
Engaged in the design and implementation of the architecture for a supply chain management product. Was an early and significant contributor to the VaccineLedger, a UNICEF Innovation Fund. Also worked on an NFT Marketplace that allows users to mint, sell, auction, and buy NFT's from the open marketplace.

Leadership & Activities

BuildUp Services
Founding Member   June'18 – Sept'20
Co-founded BuildUp Services, an AngelHack Alumni Product and helped it grow as a platform that allowed us to give a better visual understanding to Residential and Commercial Real-Estate buyers using AR and VR. Involved myself in the core development, customer engagement, and customer acquisition roles. Represented the company in San Francisco for the Global demo day as one of the top 16 startups from across the globe.

ISB
Mentor for TEP   August'19
Offered technical expertise to students at the Indian School of Business and facilitated the Technology Validation Workshop on Software and Electronics-based product development. Helped students develop prototypes and understand possible business models to scale the early stage PoC into full-fledged products.

coding.Studio();
Co-Founder   Jan'19 – Jan'21
Established the first-ever programming club as a non-profit organization and guided over 200 students over two years of tenure as a founding member and later as a Governing body member. Also developed a full-fledged LMS for the College which is being used by over 6,000 Students and Faculty. (https://abhyas.vbithyd.ac.in)

Volunteering Experience

Aditya Mehta Foundation
Core Member   June'16 – Present
Served the community of Para Athletes who contributed to the glory of the nation by winning several medals at the Asian Championship, and other international events. Received appreciation from Hon Governor of Telangana, Dr Tamilisai Soundararajan for my fundraising efforts.

Skills & Interests
Technical: Hyperledger Fabric, NodeJS, Docker, Kubernetes, Go, ScyllaDB, MongoDB**,** Content Writing
